MEMORIALS

Memorials are one of the most important purchases we can make for our loved ones. Renaissance Cast Stone set out to create an affordable alternative to granite. We feel that, with our cast stone products, we have achieved our goal.

We are producing beautiful and enduring memorial headstones, crosses, monuments, benches, planters and more, fully custom designed to your needs and taste. Most importantly, our finishing process is including a 100-year sealer, making our products weatherproof and maintenance free.
